

A logistics chain can only work if all individual links fit together reliably. In order to ensure this reliability, we place great value on the highest quality of the individual components in the construction, manufacture and assembly of our Cargolifts. This is the foundation for our extensive warranty.

24-month warranty for parts and working time of Cargolift

In order to grant this warranty, the annual inspection of your Cargolift has to be carried out by a Bär Cargolift service partner. Our qualified service partners will repair any potential damages quickly and reliably. They will process the warranty claim directly with our factory. A list showing the service partners in your region / country is available on our Bär Cargolift website.

Our Cargolift warranty includes both, parts and working time. We ask you to respect our Warranty conditions, Accepted repair time for warranty works as well as our General terms and conditions of business.

24-month warranty for Bär original spare parts

We grant a 24-month warranty for Bär original spare parts beginning from the date shown on the delivery note. We ask you to respect our Conditions for repairs and delivery of spare parts.

Warranty claim

You are a Bär Cargolift service partner and would like to submit a warranty claim? Please log in at our Bär WebShop and submit it online in connection with your spare parts order.
